

TABLE DESCRIPTION FILE: IIT_NIT_CUTOFF_EXPLORER

Table 1: Student_data

student_id (primary key) (INT) : entry of each student

year INT: year of exam

institute_type VARCHAR: IIT/NIT

round_no INT: counselling round number

quota VARCHAR : The reservation quota AI: All-India, HS: Home-State, OS: Other-State, AP: Andhra Pradesh, GO: Goa, JK: Jammu & Kashmir, LA: Ladakh

pool VARCHAR: The gender quota

category VARCHAR: GEN: General, OBC-NCL: Other Backward Classes-Non Creamy Layer, SC: Scheduled Castes, ST: Scheduled Tribes, GEN-PWD: General & Persons with Disabilities, OBC-NCL-PWD: Other Backward Classes & Persons with Disabilities, SC-PWD: Scheduled Castes & Persons with Disabilities, ST-PWD: Scheduled Tribes & Persons with Disabilities, GEN-EWS: General & Economically Weaker Section, GEN-EWS-PWD: General & Economically Weaker Section & Persons with Disability

institute_name VARCHAR: Name of the institution

program_name VARCHAR: The name of the program/stream

program_duration INT: The duration of the course (in years)

degree_short VARCHAR: The name of the degree (Abbreviated)

opening_rank INT : The opening (starting) rank for getting admission in the institution

closing_rank INT: The closing (ending) rank for getting admission in the institution

is_preparatory TINYINT: If admission to a preparatory course is available

Uni_id INT: unique ID of the college

TABLE 2: Institute details

Uni_id INT Primary Key: unique ID for each of the 54 institutes mentioned in this dataset

Institute_name VARCHAR: Name of the institution

Location VARCHAR: Location of the institution

Established_year INT: Year of establishment

Institute_type VARCHAR: NIT/IIT

Campus_size INT: Size of the campus in acres

Total_enrollment INT: Total number of students enrolled as of 2024

NAAC_Grade VARCHAR: National assessment and accreditation council (determines the quality status of an institution) (AAA – A++, AA-A+, A- A, NG-Not Graded, B-B, BB-B+)

NIRF_ranking INT: ranking of the institute as of 2024 (National Institutional Ranking Framework)

TABLE 3: Events

Event_id INT Primary Key: Unique ID for each event

Uni_ID VARCHAR: foreign key (ID of each institute)

Venue VARCHAR: Name of the venue of the fest

Event_name VARCHAR: Name of the fest

Data DATE: Data of the event

Time TIME: time of the event
